

22kW EV Charger, AC 32A, 3-Phase

Description

Designed for both residential and commercial use, this charger takes your EV from empty to full up to 7 times faster than standard chargers. Enjoy the convenience of three-phase 32A charging, delivering a powerful 22kW to keep your EV ready for any journey. Transform your charging routine and embrace the speed that matches your on-the-go lifestyle.

- **Rapid Charging:** Enjoy 3-phase 32A charging for up to 7x faster charging with up to 22kW power output, keeping your EV ready for any journey.
- **Smart Operation:** The charger features an LED display with real-time data, adjustable amperage, and intelligent charging capabilities.
- **Outdoor Ready:** Built to withstand harsh weather, ensuring reliable charging in any environment.

Parameters

Input and Output Voltage	400V±10%
Input and Output Current	32A
Rated Power	22kW
Frequency	50Hz / 60Hz
Connector	IEC Type 2 Cable / Socket (Optional)
Cable	3m (5m Optional)
User Interface	LED / Display (Optional)
Authorization	Plug and Charge/RFID/NFC/APP (Optional)
Metering	On-board/MID Meter (Optional)
Communication	4G/Bluetooth/WIFI
Protocol	OCPP 1.6 (JSON) OCPP 2.0.1 (JSON) Compatible
Installation	Wall Mounted / Floor Mounted
Protection	IP65, IK10 Over/Down voltage, Overcurrent, Overload, Ground, Over Temperature, Short Circuit, SPD
Temperature	-30°C to +45°C
Humidity	5 - 95%
Altitude	≤3500 m
RCD	Type B
Certificate	CE/Rosh
