

Description

The air conditioners we provide offer superior operating efficiency, reduced power consumption, and extended lifespan for heat-sensitive electrical components. Our enclosure cooling units are designed to cool, dehumidify, and circulate clean air within the electrical cabinet, effectively safeguarding heat-producing components from high temperatures, humidity, and airborne contaminants.

- CE Certified
- Optional Cooling Capacity from 600 W to 3,000 W
- Door Mounted

Technical Parameters

Nominal Voltage (VAC)	220V, 50/60HZ
Refrigerant Type	R143A
IP Grade	IP55
Mount	Door Mounted
Work Temperature	-15°C ~ +55°C

Ordering Information

Part No.	Cooling Capacity	Rated Power Consumption	Rated Current	EER	External Dimension (H*W*D)
732010	600W	280W	1.2A	2.1	546*315*175 mm
732020	1000W	440W	2A	2.3	793*381*175 mm
732231	1500W	650W	2.8A	2.3	745*445*200 mm
732030	2000W	800W	3.5A	2.5	745*445*200 mm
732042	2500W	1000W	4.3A	2.5	1150*485*225 mm
732040	3000W	1200W	5.2A	2.5	1150*485*225 mm
