

Description

The air conditioners we provide offer superior operating efficiency, reduced power consumption, and extended lifespan for heat-sensitive electrical components. Our enclosure cooling units are designed to cool, dehumidify, and circulate clean air within the electrical cabinet, effectively safeguarding heat-producing components from high temperatures, humidity, and airborne contaminants.

- UL Certified
- Optional Cooling Capacity 1500W, 2000W or 3000W
- Door Mounted

Technical Parameters

Nominal Voltage (VAC)	-48VDC
Refrigerant Type	R134A
IP Grade	IP55
Mount	Door Mounted
Work Temperature	-15°C ~ +55°C

Ordering Information

Part No.	Cooling Capacity	Rated Power Consumption	Rated Current	EER	N.W.	External Dimension (H*W*D)
711045	1500W	400W	8.3A	3.8	31 kgs	1112*412*175 mm
711046	2000W	520W	10.8A	3.8	31 kgs	1112*412*175 mm
711050	3000W	1000W	21A	3	47 kgs	1150*485*225 mm
711120	3000W	1000W	20.8A	3	40 kgs	745x445x300 mm
