

38U Outdoor Enclosure, Aluminum, 1.5kW Air Conditioner, IP55

Description

The 38U outdoor enclosure, crafted from durable aluminum, offers high strength and robust protection against vandalism and harsh environmental conditions, all while being lightweight. Equipped with a 1.5kW air conditioner, it is designed to effectively manage the escalating heat load demands at your base station and network edge sites. The inner thermal insulation foam helps to isolate heat from the external environment, improving the efficiency of the cooling system.

- Equipped with 1.5kW air conditioner, ensuring the adequate climate management inside the enclosure.
- Front and rear door access for easy installation and maintenance.
