

Dome Fiber Splice Closure, 144 Fiber Capacity, 1 Oval & 4 Round Ports

Description

The dome-type fiber splice closure offers a versatile solution for splicing and protecting outdoor fiber connections. Made of high-quality PP material, the closure provides IP68-rated protection and supports three installation methods: direct burial, duct, and aerial. Fiber splice trays are included, accommodating up to 144 single fusion or 288 mass-fused fibers. The heat shrink seal ensures a reliable sealing solution that maintains a firm grip over extended periods.

General Specification

Product Type	Single End
Material	PP
Color	Black
Dimension	550*Φ148mm
Protection Level	IP68
Qty of Ports	1 Oval Port & 4 Round Port
Compatible Cable Diameter	Φ16~28 for Oval Port and Φ8-20 for Round Port
Installation	Direct Burial, Duct and Aerial
Closure Sealing Type	Heat Shrink Seal
Splice Tray	4pcs of 36 Single Fusion Splice Tray
Inner Carton	550*230*210 mm (1pc)
Outer Carton	645*475*565 mm (6pcs)
