

Horizontal Fiber Splice Closure, 96 Fiber Capacity, 3 In 3 Out

Description

Horizontal fiber optic splice enclosures are essential components in CATV, telecommunications, and fiber optic networks. Known for their fast and reliable sealing abilities, these enclosures are suitable for duct installations, direct burial, and aerial fiber optic cable setups. Our horizontal fiber splice enclosures, crafted from high-tension PP and PC/ABS alloy, provide exceptional protection against environmental heat and oxygen damage while being resistant to water, fire, and shock.

General Specification

Product Type	In-line
Material	PP and PC/ASB Alloy
Color	Black
Dimension	442*213*114 mm
Protection Level	IP68
Qty of Ports	3 In 3 Out
Compatible Cable Diameter	Φ13/Φ16/Φ23 for 3-in Port and 3-out Port
Installation	Direct Burial, Duct and Aerial
Closure Sealing Type	Mechanical Sealing with Screws
Splice Tray	4pcs of 24 Single Fusion Splice Tray
Inner Carton	500*220*125 mm (1pc per Carton)
Outer Carton	640*455*515 mm (10pcs per Carton)
