

# InstalPower Telecom Outdoor Enclosure, 26U

### Description

The InstaPower Telecom Outdoor Enclosures are designed to meet the specific needs of tower companies and operators. These versatile cabinets offer a modular design, allowing you to choose from various configurations, including main cabinets, operator cabinets, and battery extension cabinets. The enclosure's durable construction, featuring high-quality materials and a two-layer design, safeguards sensitive equipment from harsh outdoor conditions. The enclosure's powerful 1000W door-mounted air conditioner ensures optimal internal temperatures, extending equipment lifespan.

- Tower mount or pole mount
- Scalable system for tower companies and MNOs
- Compact and robust
- Smart locking system included
- Monitoring system included

### General Specification

|                    |                                                                                                                       |
|--------------------|-----------------------------------------------------------------------------------------------------------------------|
| Material           | Double wall, 2 mm Thickness Hot Dip Galvanized Steel as Outer Layer, and 10 mm Thermal Insulation Foam as Inner Layer |
| Finish             | Powder Coating                                                                                                        |
| Color              | RAL7035 Light Grey                                                                                                    |
| External Dimension | H1291xW750xD720 mm (the cabinet itself, excluding the bottom shell and pole, refer to technical drawing)              |
| Protection Level   | IP55                                                                                                                  |
| Installation       | Wall Mount/Pole Mount                                                                                                 |
| Access             | Front Door                                                                                                            |
| Rack Mount         | 19"                                                                                                                   |
| Locking Mechanism  | 3-Point Smart Locking System                                                                                          |

### Cooling System

1x 11000W Air Conditioner, 48V DC

### Monitoring

Smoke Sensor/Light Sensor/Door Sensor
