

47U Data Center Rack Cabinet, 800x1000mm, Glass(F) Mesh(R), Black

Description

The 47U Data Center Rack Cabinet is a high-performance, robust, and versatile solution designed to meet the demanding requirements of modern data centers, server rooms, and IT environments. With an 800mm width and 1000mm depth, this rack cabinet offers ample space for housing servers, networking equipment, and other critical IT infrastructure, ensuring optimal organization, airflow, and scalability. The quick-open side panels enhance installation and maintenance efficiency, facilitating seamless access to your equipment.

The 47U Data Center Rack Cabinet is the perfect choice for organizations seeking a reliable, scalable, and secure solution for their IT infrastructure. Its combination of robust construction, advanced cooling features, and flexible design makes it an essential component for any high-performance data center or server room.

Features

- Both top and bottom cable entries enhance installation flexibility, accommodating various cable configurations.
- Offers multiple front and rear door styles (optional), providing customization options to suit specific needs.
